## Internship Placements Valencia, Spain

### ACCOUNTING / FINANCE

**ACCOUNTING**  
**BUSINESS**  
**COMMUNICATIONS**  
**FINANCE**  
**REAL ESTATE**

#### **Company overview:**

A tax, labor and accounting consultancy firm which is also part of a law office specialized in Business Law. At the office they adopt a different working approach; instead of limiting themselves to accounting and pay slips, they prefer to work closely with their clients, getting to know their business needs. By doing this their team provides optimal service while saving vast resources and maintaining a proven record of solving problems efficiently.

The intern will collaborate with the financial department's daily tasks, manage customers' project operations and report on economical markets. In general, the intern will collaborate with and assist in all different tasks with all team-members, depending on the company's current needs, projects and client requests. Additional tasks may arise during the development of the internship.

### BUSINESS ADMINISTRATION

**COMMUNICATIONS**  
**LOGISTICS**

**SPORTS**  
**STARTUPS**  
**TOURISM**

#### **Company example:**

A leading Spanish company with over 100 years of experience in the textile industry in Europe. Their international and vast marketing network allows them to export fabrics to clients in over 30 countries. They are a renowned and valued brand in the industry for the innovation and reliability of their products, as well as their social and environmental commitment.

Thanks to constant research and further development, they offer a unique final product. Their factory is equipped with state-of-the-art technology and they offer a wide variety of fabrics in both denim and casual, with high quality finishes.

Interns will essentially support the Design & Product department, provide cover across a variety of departments (Textiles, Design, Collections, Lab, and Laundry) and conduct research, analyze processes and provide feedback to the company.

### COMMUNICATIONS

**BUSINESS**  
**FASHION**  
**LEGAL**  
**NGOs**  
**STARTUPS**

**Company example:**

Founded in 2010 by investors and entrepreneurs, this successful Spanish accelerator drives new ideas that base their business model on Internet and mobile applications. It currently has two venture capital firms, through which they invest in a variety of startups at different stages.

Their lab is located in the heart of Valencia, the leading city in startups and accelerators in Spain, and has one of the most extensive entrepreneur ecosystems in the country.

Interns will create a campaign to promote brands in multiple global markets, be in charge of developing new projects, and create content for multi-platforms, social networks, advertising agencies, mass media, niche communications etc.

## COMMUNITY

- EDUCATION**
- HEALTHCARE**
- NGOs**

**Company example:**

This company is made up of a highly qualified team specialized in different sectors, which include civil engineering, industrial engineering, food, plastic, steel, auto, furniture, textile, railway, PV and thermal solar energy, wind power, biomass, electronics, consultancy and turnkey projects.

Interns will work on various projects related to their specific area of study. They will meet with the project manager and the customers to review potential opportunities. The student will maintain communication with the internship supervisor to discuss the project's progression.

## DESIGNING

- ARCHITECTURE**
- COMMUNICATIONS**
- ENGINEERING**
- FASHION**
- STARTUPS**

**Company example:**

Swimwear brand that values craftsmanship and attention to small detail. That is why each of their prints are hand painted and then transferred onto materials resistant to water and sun. Their garments are made with utmost special care, paying attention to details that enhance the beauty of women.

The intern's position consists of helping the CEO with development and improvement of the web platform, taking on marketing duties such as product detail and trend search, coordinating and planning digital marketing campaigns, editing video footage and photos using Photoshop, Illustrator, InDesign, After Effects or Premier Pro. The intern is required to give maximum effort, have a proactive attitude and be enthusiastic when it comes to working in a fast-growing startup.

## ENGINEERING

- ENERGY**
- ENGINEERING**
- R&D**
- STARTUPS**

### **Company example:**

A company specialized in the development of new applications with drones, specifically for rescue and emergency services. Their rescue drones will be installed on the beaches of Valencia and Sagunto during the summer. They also provide geomatics services with drones and training classes for advanced RPAS pilots.

Interns will support the technical team, report on flight efficiency and effectiveness, assist in design and manufacture support, research equipment improvements and provide data analysis.

## SALES

**COMMUNICATIONS**

**FASHION**  
**LOGISTICS**  
**SPORTS**  
**TOURISM**

### **Company example:**

A Spanish football club that competes in the Spanish Football League 'La Liga', highly regarded as one of the best teams in the first division. It is a successful organization that seeks to develop the excellence of sports and its youth development.

The intern will manage the club's new business and social media accounts, be in charge of identifying key multimedia elements concerning digital football, adapt content to international markets (mainly by identifying the correct themes to promote, cutting video clips and creating subtitles when needed) and help build a stronger networking platform with media professionals from all over the world. Business specific interns will be in charge of market research, prospective clients, industry trends analysis and contact with potential partners. Other perks include being able to watch live training sessions, official matches and meeting professional athletes.

## SOCIAL MEDIA / PR

**COMMUNICATIONS**  
**FASHION**  
**MUSIC**  
**NGOs**  
**STARTUPS**

### **Company example:**

A company with 40 years of experience in the entertainment industry. Their main services include artist management, production and development of entertainment events. They are specialized in organizing concerts for national and international artists throughout Spain, specifically in Valencia and the surrounding areas. They represent a

wide variety of artists, orchestras and bands which hold over 1,200 performances annually. They also organize and participate in the management of several large music festivals across the country.

The tasks and responsibilities of the intern will include creating content for digital platforms, collaborating with the communications department, participating in the planning and organization of digital campaigns for music events and working with social media and websites.

## TEACHING

**EDUCATION**

**HEALTH**

**HUMAN RESOURCES**

**NGOs**

**Company example:**

A private school that offers bilingual Spanish and English education at pre-school and primary levels. The intern will provide assistance in the classroom with one-on-one reading, oral presentations, individual group work, and supporting the creative subjects such as cooking, art and sports. The intern will also support children with learning difficulties. Additionally, the intern will help with classroom administration assigned by the classroom teacher, such as photocopying and classroom decoration.

## TRADE

**BUSINESS**

**FINANCE**

**LOGISTICS**

**STARTUPS**

**TECHNOLOGY**

**Company example:**

Bidirectional B2B Marketplace adapted to the fresh produce industry that is revolutionizing the way of doing business in this sector. Thanks to AI, algorithms and bots, they connect companies depending on their specific interests. FruitsApp streamlines the trading process, avoids intermediaries and saves time, resources and money for the companies it works with. Logistics and negotiations are integrated. Their long term vision is to become the Stock Market for the fresh product industry.

The intern's tasks are related to a logistic assistant role, where he/she will learn how to perform stock valuation calculations, apply the established criteria and transfer the results to the designed format. The intern will also need to obtain necessary information from the different transport services through procedures established for the contracting of cargos and properly use warehouse management software to transmit, obtain and treat information.
